NOTICE

I have added a small line of Watches and Jewelry of the latest styles direct from New York and will add more from time to time as I learn what the trade demands. When in need of anything in my line would be pleased to have you call. My goods are all from the well known makers.

C. E. HOBSON, the Jeweler

The Farm Pays Better

When the farmer awakens to the importance of adequate housing for himself and family, his stock, grain and machinery. Every dollar invested in building will give a twofold return. The gamble is great enough at best without being handicapped by poor housing conditions. If you are going to build anything out of wood, cement or brick, we can save you money. Every courtesy possible extended.

ROBERTS & OLVER

Where your DOLLAR does its duty.

Roy, N. M.

Mrs. J. J. Taylor and children are in Roy this week looking after their wheat harvest. They expect to thresh this week and will return to their Pueblo home the latter part of the week.

Floyd Lackey of Texas arrived in Roy Thursday and was met at the train by Herbert Yates. Miss Lackey will teach school at Kephart this winter.

Eleven Years' Performance Proves OilPull Dependability

ELEVEN years ago the first Rumely OilPull tractors were put on the market. They were the industry's pioneers and went into the great unbroken prairies of the Northwest and Canada. They went up against the toughest conditions of soil and climate that ever tested a tractor. And they "made good"—their owners will tell you that.

Many thousands of OilPulls have followed those pioneers, and in these eleven years the OilPull has built up a record of continuous, reliable, economical operation that is unequalled in the pages of tractor history. In fact, the first OilPulls built are still on the job—Old Number One in South Dakota, Number Six and Number Nine in Kansas, and many others—year after year of continuous service and still good for many years more.

So the OilPull has built a remarkable record for the kind of service it will deliver to its owner. Eleven years test has proved the correctness of OilPull design and this same assurance of dependable service is in every OilPull you buy—no matter the size. Today the OilPull is made in sizes to fit every need—from 3-plow to 10-plow—and every one is backed by a written guarantee—12-20, 16-30, 20-40 and 30-60 H. P.

Let us tell you more about this famous oil-burning, oil-cooled tractor.
